

Welding blankets and high temp blankets

Welding blankets for protection with welding and cutting work.

Solid fabric wire, asbestos free, on one side with alufix laminated.

Weight 660 gram/m², 0,7 mm thickness very strong.

Roll width 1,00 meter and roll length 50 meter.

Continuous temperature till 550 degrees C and a peak of 600 degrees C.

Melting point 840 degrees C.

Number	Description
6016000	Per m ² cut of the roll
6016001	1 x 1 meter seamed
6016002	1 x 2 meter seamed
6016003	2 x 2 meter seamed
6016004	3 x 3 meter seamed

Weight 1050 gram/m², 1,6 mm thickness very strong.

Roll width 1,00 meter and roll length 50 meter.

Continuous temperature till 750 degrees C and a peak of 850 degrees C.

Melting point 940 degrees C.

Number	Description
6016040	Per m ² cut of the roll
6016041	1 x 1 meter seamed
6016042	1 x 2 meter seamed
6016043	2 x 2 meter seamed
6016044	2 x 3 meter seamed

High temperature welding blankets

Weight 1000 gram/m², 1,6 mm thickness very strong.

Continuous temperature till 900 degrees C and a peak of 1150 degrees C.

Melting point 1350 degrees C.

Number	Description
6016005	Per m ² cut of the roll
6016027	1 x 1 meter seamed
6016006	1 x 2 meter seamed
6016007	2 x 2 meter seamed
6016028	2 x 3 meter seamed

High temperature welding blankets, roll width 0,9 meter.

Weight 1150 gram/m², 1,4 mm thickness very strong.

Continuous temperature 1150 degrees C and a peak of 1300 degrees C.

Melting point 1600 degrees C.

Number	Description
6016019	Per meter length cut from roll
6016020	0,9 x 2 meter seamed
6016021	1,8 x 2 meter seamed
6016029	1,8 x 3 meter seamed
