

## BRISTLE BLASTER Rotating Blasting Discs

### BRISTLE BLASTER

Bristle Blasting is a process that uses a specially designed rotary tool for achieving both corrosion removal and an anchor profile in the surface. The special bristle tips strike to the corroded surface with kinetic energy that is equivalent to shot blasting media. It is used for corrosion, mill scale and coating removal. Surface texture and anchor profile with roughness from 40 to 120 microns even on weld seams. Eco-Friendly does not use or produce any hazardous materials. Clean to SA 2.5 - SA 3.0. Improved integrity of the treated surface. Negligible heat generation, surfaces free of thermal damage/heat marking. Simple and economical as it eliminates the need for complex and costly abrasive blast equipment.

**ALL ELECTRIC AND CORDLESS BRISTLE BLASTERS ARE EQUIPPED WITH A DEAD MAN'S SWITCH**

Article No.	Description
621209	Bristle Blaster P Pneumatic for steel ATEX approved in carry box with 10 belts and accessories
621211	Bristle Blaster P Pneumatic for stainless steel ATEX approved in carry box with 10 belts and accessories
621210-2	Bristle Blaster E Electric 230Vac 50/60Hz in carry box with 10 belts for steel and accessories
621210W	Bristle Blaster E Electric Double for steel in carry box with 6 belts and accessories
621212	Bristle Blaster Cordless for steel in carry box with 5 belts and accessories, 1 battery + charger 230V
621212B	Bristle Blaster Cordless for steel in carry box with 5 belts and accessories, without battery and charger
621212C	Bristle Blaster Cordless for steel machine only
621213	Bristle Blaster Axial P Pneumatic for steel in carry box with 6 belts and accessories
621240	Bristle Blaster Subsea P Pneumatic for underwater use
621214	Bristle Blaster Belt 11mm for steel (packing 5 pcs)
621215	Bristle Blaster Belt 23mm for steel (packing 5 pcs)
621216	Bristle Blaster Belt 23mm for stainless steel (packing 5 pcs)
621217	Bristle Blaster Belt 11mm for stainless steel (packing 5 pcs)
621220	Bristle Blaster Adapter for 11mm belt
621221	Bristle Blaster Adapter for 23mm belt
621300	Bristle Blaster Adapter Easylock for 11mm belt
621301	Bristle Blaster Adapter Easylock for 23mm belt
621222	Bristle Blaster Pin 11 mm stainless steel
621223	Bristle Blaster Pin 23 mm stainless steel
621224	Bristle Blaster Pin 11 mm steel
621225	Bristle Blaster Pin 23 mm steel
621230	Bristle Blaster Battery 18V 8.0 Ah LiHD CAS compatible
621231	Bristle Blaster Battery 18V 5.5 Ah LiHD CAS compatible
621232	Bristle Blaster Battery rapid charger for LiPower/LiHD batteries 12-36V CAS compatible mains voltage 220-240V
621233	Bristle Blaster Duo Battery rapid charger for LiPower/LiHD batteries 12-36V CAS compatible mains voltage 220-240V
621295	Bristle Blaster Double Adapter system
621296	Bristle Blaster Double accelerator bar 23mm
621294	Bristle Blaster Protection Cover for Bristle Blaster Single
621298	Bristle Blaster Protection Cover for Bristle Blaster Double
621273	Bristle Blaster Dust Exhaust attachment with hose connection diameter 35.5mm for Bristle Blaster single belt electric
621274	Bristle Blaster Dust Exhaust attachment with hose connection diameter 35.5mm for Bristle Blaster double belt electric
621275	Bristle Blaster Dust Exhaust attachment with hose connection diameter 35.5mm for Bristle Blaster Pneumatic
