

# DRILL HAMMER

EGA Master hydraulic jackhammers are designed to drill very resistant and hard surfaces in underwater environments.

**\*G12**  
12 Months  
of warranty  
**CE**

**COD**

79915

**Indispensable for drilling hard or really thick materials!**

**AQUA Master**

**1. Essential to drill materials such as concrete, brick, stone ...** that conventional drills would not be able to bore. The rotation is accompanied by a **hammering movement** that causes the rupture of the material and allows the bit's advance facilitating the hole making.

**2. Equipped with a safety clutch** that protects against overloads and blockages.

**3. SDS-Plus system.**

**4. An adjustable side handle** and depth gauge provides higher comfort.

## TECHNICAL SPECIFICATIONS

|                    |                      |
|--------------------|----------------------|
| Working pressure   | 100 Bar              |
| Type               | Hydraulic            |
| Impacts per minute | 4460                 |
| CAP                | 25mm (concrete)      |
| R.P.M              | 625 rpm              |
| Power              | 0,6 kw               |
| Oil flow           | 10-50l/min           |
| Connection         | 3/4"-16UNF           |
| Sound level        | 92db                 |
| Adapter plug       | SDS Plus             |
| Vibration level    | 4,5 m/s <sup>2</sup> |
| Length             | 470 mm               |
| Weight             | 8,2 kg               |

### OPERATING INSTRUCTIONS FOR UNDERWATER TOOLS:

#### BEFORE underwater operation:

- Test the machine for leakage
- Test all functions of the machine (drilling, blowing, all moving parts, valves)
- Spray all moving parts with lubricant OKS 8601 (or similar)

#### AFTER underwater operation:

- Clean the machine
- Dry the machine with compressed air
- Spray all moving parts with lubricant OKS 8601 (or similar)
