Edge Harnesses according to EN 361

Basic models provides good fit and easy adjustment options

Number Description

483100 Edge 1 harness
 Basic harness with 1 D-ring on the back.
 Size M-XL

Left picture

Number Description

483101 Edge 2 harness
 Basic harness with 1 D-ring on the back and 2 D-rings on the chest.
 Size M-XL

Rigth picture

Number Description

483102 Edge Rocky 1 harness
 Basic harness with 1 D-ring on the back and 2 D-rings on the chest, 2 D-rings on the hips.
 Integrated positioning belt.
 Size M-XL

Left picture

Edge Enterprise harnesses EN 361

Characterized by safety, comfort and simplicity.
 Harnesses in this class have a more complex structure
 but very comfortable and yet easy to put on.

Number Description

483103 Edge Enterprise Automatic
 1 D-ring on the back, 2 loops on the chest
 and quick release buckles.

Rigth picture

Number Description

483104 Edge Enterprise Comfort

1 D-ring on the back, 2 loops on the chest and quick release buckles.
In orange color, with back and leg padding and a patented fall indicator.

Left picture

Number Description

483105 Edge Enterprise Evolution

1 D-ring on the back, 2 loops on the chest and quick release buckles.
In orange color, with back and leg padding and a patented fall indicator.
With oil and dirt repellent Teflon webbing.

Rigth picture

Edge Endeavour harnesses EN 361 + EN 358

Characterized by safety, comfort and simplicity.
Harnesses in this class have a more complex structure but very comfortable and easy to put on.

Number Description

483106 Edge Endeavour Basic

1 D-ring on the back and 2 loops on the chest, 2 D-rings on the hips
With classic buckles closure

Left picture

Number Description

483107 Edge Endeavour Comfort

1 D-ring on the back, 2 loops on the chest chest, 2 D-rings on the hips
With quick release buckles
orange color, back and leg padding and patented fall indicator

Rigth picture

Number Description

483108 Edge Endeavour Evolution
1 D-ring on the back, 2 loops on the chest
chest, 2 D-rings on the hips
With quick release buckles
orange color, back and leg padding
and patented fall indicator
With oil and dirt repellent Teflon webbing.

Left picture

Edge Orbiter harnesses EN 361 + EN 358

The big advantage of the harnesses is the diversity of possible equipments and adjustments. As a result these harnesses can be used for many purposes.

Number Description

483109 Edge Orbiter Basic
1 D-ring on the back and 2 D-rings on the chest,
2 D-rings on the hips
With classic buckles closure

Rigth picture

Number Description

483110 Edge Orbiter Comfort
1 D-ring on the back, 2 D-rings on the chest
chest, 2 D-rings on the hips
With quick release buckles
orange color, back and leg padding
and patented fall indicator

Left picture

Number Description

483111 Edge Orbiter Evolution
1 D-ring on the back, 2 D-rings on the chest
chest, 2 D-rings on the hips
With quick release buckles
orange color, back and leg padding
and patented fall indicator
With oil and dirt repellent Teflon webbing.

483161	Edge H10 Heatcruiser FR Harness-vest
--------	--------------------------------------

Speciaal weefsel voor de banden welke vlamvertragend is.

Volgens EN 361, EN ISO 11611,

EN ISO 11612, EN 471, EN ISO 14116

1 D-ring op de rugzijde, 2 D-ring op de borstzijde,

voorzien van snel-gesp-sluitingen.

Voorzien van Edge Intellivest 551 size L

Doelgroep oa. Brandweer

Right picture

Edge Racoon indoor/outdoor sport harnas

Number Description

483162 Edge Racoon Adult
Special sports harness in the size for adults.
Also available in child size.
According to EN 12277

Left picture

Edge Commando hips positioning belts

Number Description

483163 Edge Commando Basic
Positioning harness belt with 1 D-ring on the chest and 2 D-rings on the hips.
According to EN 358, EN 813
With classic buckles closure
To be use in combination with a harness

483164 Edge Commando Basic
Positioning harness belt with 1 D-ring on the chest and 2 D-rings on the hips.
According to EN 358, EN 813
With quick release buckles
To be use in combination with a harness

Edge Chemistry FR + AST

Number Description

483165 Edge Chemistry
Made of flame retardant and anti-static material. The ultimate harness for use at chemical and petrochemical plants.
According to EN 361, EN 1149
FOR USE IN AN ATEX ENVIRONMENT
With classic buckles closure
1 Loop on the bag and 2 on the chest.

Left picture

Edge Elastic

Number Description

483166 Edge Elastic
Is in base the same as type 483166 especially in use as life saving harness, scaffolding and green house builders.

Rigth picture

Edge Positioning lanyards

Edge positioning lines are composed of high quality materials. The core mantle line is made of polyamide and has a steel snap hook and/or aluminium scaffold hook.

Edge Scaffold hooks as temporary anchoring point

Number	Description
483240	Edge Olympus-M -1 Scaffold hook Steel hook > 22 kN Opening 75mm Weight 308 gram According to EN 362/2004/T
483241	Edge Olympus-M -2 Scaffold hook Steel hook > 22 kN Opening 100mm Weight 356 gram According to EN 362/2004/T
483242	Edge Olympus-M -3 Scaffold hook Steel hook > 22 kN Opening 140mm Weight According to EN 362/2004/T

Number	Description
483245	Edge Kneiff Aluminium telescopic stick Maximum length 6 meter With aluminium carabiner type 126 Opening hook 61mm > 22 kN According to EN 362/2004/A

Number	Description
483248	Edge Le Rocher Adjustable steel door anchor point Adjustable from 35 cm up to 124 cm Material steel > 22 kN Volgens EN 795 For a temporary anchor point

Edge slings and tripot sets

For temporary and variable anchor points
 The solution for temporary anchorage for height and depth. According to EN 354 + EN 566 + EN 795
 The Edge slings are made of 26mm PES-webbing and available in 4 different lengths.

Number	Description
483250	Edge sling 30 kN - 6 Length 60 cm Diameter 120 cm
483251	Edge sling 30 kN - 8 Length 80 cm Diameter 160 cm
483252	Edge sling 30 kN - 10 Length 100 cm Diameter 200 cm
483253	Edge sling 30 kN - 12 Length 120 cm Diameter 240 cm

Edge tripod-set consist out of a solid, adjustable tripod, a shock absorber with winch (18m) and a separate winch (20m)

Number	Description
483255	Edge Tripod-set Adjustable length in legs tripod Shock absorber with winch 18 meter Separate winch 20 meter

Very useful for operations on narrow openings in depths for rescue like tanks.

Number	Description
483256	Edge tripod-set Aluminium adjustable tripod. Winch with shock absorber. Cable length 15 meter Developed for 2 persons SWL 250 kilo Safety Ratio 6:1 According to EN 795 For rescue operations in tanks or on board of vessels. Fits above a manhole.
483257	Carry bag for tripod

Edge self-retracting lifelines / blocks

Self retracting lifelines with webbing, kevlar webbing and galvanized steel wire rope.

Number	Description
483260	Edge Kinetix 2,5 meter webbing, self-retracting lifeline with shock absorber and swivel safety hook. This specific hooks protects the webbing against twisting and prevent that the webbing rolls twisted into the cassette. Standard supplied with a scaffold hook with a 61mm opening. On request the scaffold hook can be replaced by a snap hook. According to EN 360

Number	Description
--------	-------------

483261	Edge Kevlar 1025 2,5 meter kevlar webbing, self retracting Aluminium housing and a swivel attachment point. According to EN 360
