

# MIR G2 KIT (Marine)

LED - Marine - replacement kit to upgrade MIR T5/T8 fluorescent tube to LED

## Description

The MIR G2 KIT (Marine) is energy saving and offers a long lifetime. It is very easy to convert from T8 to LED technology.

To upgrade from MIR T8 or MIR LED to MIR G2 (Marine) you find everything you need in the kit: Geartray (including driver, LED and MIR quick connector), new MIR G2 Diffuser and new MIR G2 clips.

NB --- For emergency versions with EXTERNAL battery (EB) : Battery must be ordered separately

---- When you convert from MIR T8 or MIR LED , you must use the same high battery type.

For internal battery versions , battery is included in the kit.
