Repair Management Nederland B.V.

More management less firefighting

Handi Klip ®

Designed primarily for the firefighting industry, the new Handy Klip® glove clip uses a ball and socket joint that has a higher breakaway point and holds up to the brief flash temperatures of a fire. With its oversized jaws and interlocking teeth it will hold even the largest pair of gloves. To use simply clip the small end to your belt loop or directly to your clothing and attach your gloves to the large end.

479501	Handi Klip® in colour black
479502	Handi Klip® in colour blue
479503	Handi Klip® in colour red
479504	Handi Klip® in colour green
479505	Handi Klip® in colour Hi-Vis yellow
479506	Handi Klip® in colour Hi-Vis pink

Glove Cather Clip

The Glove Cather Clip is a simple, one piece design that is a cost effective way to keep your gloves at hand. Gloves left in the vehicle or elsewhere do no good, if gloves are available they will be used. To use: slip the clip over a belt, squeeze to open the jaws and then insert your gloves into the open jaws.

Glove Guard ®

The Glove Guard® glove clip is made from an engineered grade material that holds its memory, resists flex fatique, is non-conductive and non-corrosive. It has a proven record of reducing glove loss and hand injuries, giving them strong return on investment. To use, simply clip the small end around your belt loop or directly to your clothing and clip the large end to your gloves.

Utility Guard ®

The Ultility Guard® glove clip features the same safety features and robust design as the Glove Guard®.
clip but uses a belt clip instead of a small clamp to attach to the user. To use, simply slip the belt clip over your belt, waistband or pocket and attach your gloves, towel or earmuffs to the large clamp.

Hold-all Catcher Clip

The Hold-All Cather Clip is a versatile clip that is a "Catch-All" for everything else you haven't caught yet. Originally designed as an easy and convenient way to keep up with a hard head when not in use, the Hold-All Cather Clip is actually a multipurpose clip that can be used to keep up with other tools or PPE items. To us: slide the belt clip over your belt, pocket or waistband and then open the clip by either pulling the tab out to unsnap it or slide it to either side. Once open, insert the item you wish to hold into the clip and then either snap or twist the clip into place.
