

DISINFECTION COLUMN

Hygiene on your location. Disinfects the hands regularly

For the time being we will have to get used to the fact that all kind of measures will continue to be taken to prevent the spread of viruses. One of the measures is a proper disinfection of the hands.

The disinfection column offers all visitors to your location the opportunity to easily disinfect the hands.

The disinfection column with aluminium dispenser offers both your own employees and visitors the opportunity to thoroughly disinfect their hands upon entry and exit the location.

This limits the spread of viruses.
