

ABB Ty-Rap Cable Ties

ABB Ty-Rap Cable Ties the original

High grade nylon cable ties, moisture resistant. Easy installation and resilience in cold or dry conditions.

For the best results, a compatible ABB Cable Tie Installation Tool should be used to fasten and trim cable ties.

Safety and reliability: The oval head with rounded edges protects against adjacent bundles and improves product life.

Up to 3x longer life time: Solid body construction reduces stress points, increasing durability.

The Grip of Steel: Corrosion resistant marine grade stainless steel barb provides secure lock. Protects bundle: The smooth, rounded body with moulded ribs and stipples firmly grips the bundle while protecting conductors from damage.

Easy Handling: The turned up tail makes orientation and handling easy, even in blind or tight locations.

Easy Installation: The specially designed thin tail with grips makes installing the ties easy, even when wearing gloves.

Extensive range of approvals and certifications: DNV-GL, LR, VG, Mil. Spec., ABS etc. The Black Cable Ties are UV-Resistant and recommended for outdoor applications.
