BAND-IT Stainless steel AISI 316 Multi-lok cable ties
This stainless steel fixing program is especially suited for applications in Shipyards and offshore.
The MULTI-LOK is designed for univeral applications in those industries.
Available as uncoated and rilsan coated version.
Certified by DNV-GL, LR, ABS, RMS, UL.

BAND-IT MULTI-LOK Installation Tool
The M50389 Multi-lok hand tool cuts the tail automatically when the right tension is reached.
The M50389 is a robust high performance tool.

Article No.	Description
760221	M50389 Multi-lok hand tool for both 7 and 12 mm bands
760222	S282 Multi-lok hand tool budget type for both 7 and 12 mm bands. For intensive jobs we recommend the M50389

BAND-IT VALU-STRAP Stainless steel band AISI 304
VALU-STRAP band is the light duty stainless steel banding used in applications ranging from strapping to bundling. Typically non-magnetic, this economy steel is suitable for light duty applications when the benefits of stainless steel are required. Band thickness 0.38mm.
For ambient temperatures of -60 to +300˚C.
Also known as Value Series Stainless Steel. Certified by DNV-GL, LR, ABS, RMS, UL.

Ty-Met Stainless Steel Cable Ties

ABB Ty-Met Ball Lock stainless steel AISI 316 cable ties
Fast and reliable self-locking mechanism. For ambient temperatures of -40 to +165°C.
Available in uncoated stainless steel or black coated stainless steel.
Round edges and smooth surfaces.
Coated version with halogen free polyester, non-toxic. Provides a superior protection of cables and installers hands and for improved insulation between dissimilar materials.
Certified by DNV-GL and LR.
