

Fein Angle Grinders

Fein Electric Angle Grinder CG 10-125

Compact angle grinder 230V 50Hz 1.000W, for deburring, grinding and effective cutting. Powerful robust electric motor for daily use. Including quick-clamping nut for changing grinding materials without the need for any tools. Integrated restart protection. Speed no load 11.000 rpm. Diameter grinding disc ø125 mm, flange M14, cable 4 meter.

Article No.	Description	Diam. ø mm	Wattage

Fein Electric Angle Grinder CG 13-125 V

Compact angle grinder 230V 50Hz 1.300W, for deburring, grinding and effective cutting. Adjustable speed. Powerful robust electric motor for daily use. Overload protection and long lifetime carbon brushes. Including quick-clamping nut for changing grinding materials without the need for any tools. Integrated restart protection, kick-back monitoring, softstart, anti-vibration handle. Direct cooling of the motor. Speed no load 2.800-11.500 rpm. Diameter grinding disc ø125 mm, flange M14, cable 4 meter.

Fein Electric Angle Grinder CG 17-125

Compact angle grinder 230V 50Hz 1.700W, for deburring, grinding and effective cutting. Powerful robust electric motor for daily use. Overload protection and long lifetime carbon brushes. Including quick-clamping nut for changing grinding materials without the need for any tools. Integrated restart protection, kick-back monitoring, softstart, anti-vibration handle. Direct cooling of the motor. Speed no load 11.500 rpm. Diameter grinding disc ø125 mm, flange M14, cable 4 meter.

Fein Electric Angle Grinder CG 17-125 INOX

Compact angle grinder 230V 50Hz 1.700W, for use on stainless steel. Adjustable speed. Powerful robust electric motor for daily use. Overload protection and long lifetime carbon brushes. Including quick-clamping nut for changing grinding materials without the need for any tools. Integrated restart protection, kick-back monitoring, softstart, anti-vibration handle. Direct cooling of the motor. Speed no load 2.200-7.500 rpm. Diameter grinding disc ø125 mm, flange M14, cable 4 meter.

Fein Electric Angle Grinder CG 17-150

Compact angle grinder 230V 50Hz 1.700W, for deburring, grinding and effective cutting. Powerful robust electric motor for daily use. Overload protection and long lifetime carbon brushes. Including quick-clamping nut for changing grinding materials without the need for any tools. Integrated restart protection, kick-back monitoring, softstart, anti-vibration handle. Direct cooling of the motor. Speed no 9.300 rpm. Diameter grinding disc ø150 mm, flange M14, cable 4 meter.

Fein Electric Angle Grinder CG 15-125 BL

Compact angle grinder 230V 50Hz 1.500W, dust-resistant, powerful, low maintenance with brushless Fein PowerDrive motor for effective cutting, grinding and deburring in tough working environments. Optimum protection for the motor from aggressive ceramic and mineral dusts and therefore reduction in downtimes and maintenance cost. Including quick-clamping nut for changing grinding materials without the need for any tools. Soft start, restart protection, blockage monitoring, electronic overload protection, speed preselection, kick-back monitoring, anti-vibration handle and brake. Optimum cooling and temperature monitoring. Fatigue-free working thanks to narrow grip dimensions, compact design and well-balanced low weight. Speed no load 3.800-9.000 rpm. Diameter grinding disc ø125 mm, flange M14, cable 4 meter.

Fein Elektrische Haakse Slijper CG 15-150 BLP

Compact angle grinder 230V 50Hz 1.500W, dust-resistant, powerful, low maintenance with brushless Fein PowerDrive motor for effective cutting, grinding and deburring in tough working environments. Optimum protection for the motor from aggressive ceramic and mineral dusts and therefore reduction in downtimes and maintenance cost. Including quick-clamping nut for changing grinding materials without the need for any tools. Soft start, restart protection, blockage monitoring, electronic overload protection, speed preselection, kick-back monitoring, anti-vibration handle and brake. Optimum cooling and temperature monitoring. Fatigue-free working thanks to narrow grip dimensions, compact design and well-balanced low weight. Speed no load 2.800-7.000 rpm. Eye for carabiner to secure the angle grinder and prevent it falling off when working at height. Diameter grinding disc ø150 mm, flange M14, cable 4 meter.
