

## Light fittings LED for mirror cabinets

### Light fittings LED IP44 for mirror cabinets

Developed for lighting living quarters, cabins and other rooms that require IP44 ingress protection. Available in protection Class I and II.

Body made of galvanized sheet steel covered with a powder painted galvanic coat.

Lamp shade is made from opaque acrylic.

Includes a electric outlet for shaves with a Euro socket (or an Euro-American 115/230V socket) with isolated voltage (via an isolator transformer with an overload thermal fuse).

Current: 115V or 230V 50/60Hz. (standard 230V 50/60Hz, on request 115V 60Hz).

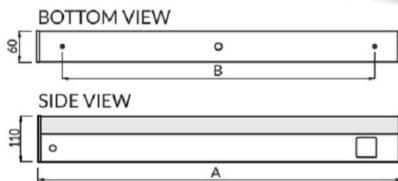

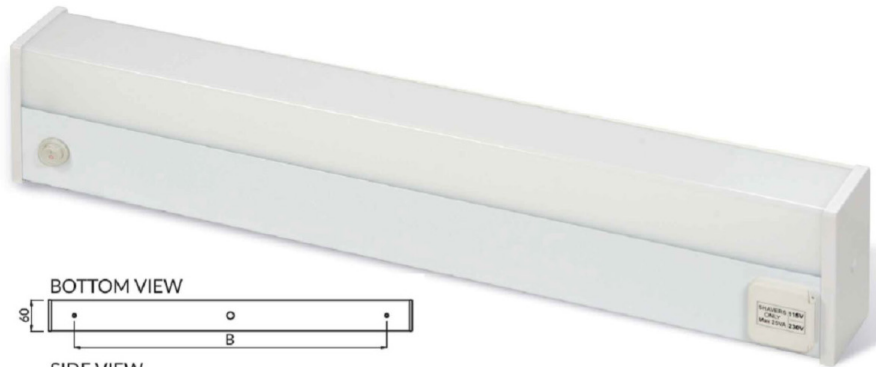

Lengths: 318, 515, 633 mm

Optional: Switch (on the opposite side of the razor socket).

Optional: Lamp without razor socket.

Protection: IP44. Electrical installation: EN-60598-1/2015, Directive LVD 2014/35/EU

Can also be ordered including a mirror cabinet.

Dimensions in mm

Power (W)	A	B	W	H
8W	318 mm	233 mm	60 mm	110 mm
12W	515 mm	405 mm	60 mm	110 mm
16W	633 mm	495 mm	60 mm	110 mm

Class I with 3-wire power connection to connect the protective earthing conductor.

Article No.	Description	Wattage (W)	Voltage (V)	Light colour	Output Lumen	Socket side	Switch on/off	Weight (kg)
94BANC20540	Light fitting LED class I	8W	230V 50/60 Hz	3.000K	1.400lm	L	-	1,4
