

WELCOME TO THE #EFFICIENCYFAMILY

LED Floodlight PM COLOSSUS 2-module

Professional LED Floodlight with large dissipation area of **standard 90°**

Construction made of sheet steel and internal body of high performance aluminium injection body with high performance coating, black color with a 4 mm tempered glass and IK08 impact resistant.

Fireproof internal wiring up to 300°C with high strength and flexibility.

Symmetric and asymmetric internal louvres specially designed to cover large surfaces, improve directional light flow and avoid glare. Adjustable bracket.

FOR MARINE ENVIRONMENTS optional with certified **anti-saline coating** available and doesn't affect the heat dissipation of the fixture. For chemical environments there is an optional anti-corrosion coating available.

LED Driver IP67, rectangular grey, adjustable 1-10V. Complete with IP68 Connector.

LED 3535 module [L80B10] with superior efficacy **up to >186 lm/w.**

Estimated useful life superior to >100.000 hour.

5 years manufacturers warranty, (optional 10 year).

Available light colors 2700K, 4000K and 5000K (standard color 4000K) CRI >70.

Voltage 95/270V 48/63Hz.

Protection IP66 IK08 (On request IK10).

Power factor $\geq 96\%$ ($\cos \phi \geq 0,96$).

Overvoltage protection 6KV.

Breather valve equals temperature inside and outside, reducing temperature and prevent condensation inside. Ambient temperatures -40°C - +60°C.

Total weight 14 kg.

Optional available with emergency battery, optional movement sensor, optional DALI protocol, RMS, CRI 80 and CRI 90, optics 10°, 30°, 60°, 90°.

Developed and produced in SPAIN EU.
