PETZL

Safety Helmets Petzl

Petzl VERTEX professional comfortable safety helmet

Very Comfortable:

Six-point textile suspension adapts perfectly to the shape of the head. CENTERFIT feature allows perfect centering of the helmet on the head, thanks to its two side adjustment wheels. FLIP&FIT system allows the headband to be positioned in low position, guaranteeing that the helmet fits securely on the head. The system folds into the shell for easy storage and transport. Comes with interchangeable standard comfort foam.

Protection designed for work at height and on the ground:

DUAL chinstrap allows the worker to adjust chinstrap strength in order to adapt the helmet to different environments: work at height (EN 12492) or on the ground (EN 397). The clip has two positions, corresponding to two uses: high strength, limiting the risk of losing the helmet during a fall, and low strength, limiting the risk of strangulations if the helmet is snagged while the user is on the ground. Shock absorption achieved through deformation of the outer shell. Unventilated outer shell protects against electrical hazards, molten metal splash and flames.

Modular accessories:

Eye shield with EASYCLIP side attachment system for easy installation. Petzl headlamp with mounts, or headlamp with elastic headband. Helmet protector keeps the shell free from soiling and paint splash. Nap protector provides effective sun and rain protection for the nape of the neck. Nametag holder allows user to be easily identified. Changeable chinstrap and foam. Hearing protection. Available in seven colors: white, yellow, red, orange, black, blue and green. Also comes with two high-visibility versions: yellow and orange.

Specifications:

Head circumference 53-63 cm, Weight 490 gr, material(s) ABS (acrylonitrile butadiene styrene), nylon, polycarbonate, high-strength polyester, polyethylene. Certification(s); CE, EN 397, EN 12492 (1), EN 50365, according ANSI Z89.1 Type I Class E, EAC, AS/NZS 1801, GB 2811. (1) meets all requirements of the EN 12492 standard, except the ventilation requirement.
