

Edge Grip Stair Nose Swiss Solutions

Swiss Solutions Edge Grip Stair Nose Heavy Duty

The Swiss Solutions Edge Grip Heavy Duty Anti Slip GRP Stair Nosings are a long-lasting and highly durable fibreglass anti slip stair nosing. Two grades are available for internal and external applications. Our Edge Grip HD Stair Nosings incorporate a unique ExtremeCore ceramic grit measuring a tough 9 on the MOHs hardness scale (diamond = 10), meaning they are twice as durable than standard quartz nosings. This means they are suitable for extreme traffic conditions, and will last for years.

The 55mm contrasted coloured nosing also makes them Building Regulation and Disability Discrimination Act Part III compliant (in particular, the sections relevant to partially sighted). Can be used on wood, concrete, stone and steel substrate.

Suitable applications are:

High traffic areas, spiral staircases, fire escapes, most staircases, external stairs (GRP), internal stairs, platform edges and kerb edges (GRP).

Product characteristics are:

Meets building regulations. Aids with DDA legislation. Slip resistant top surface. Impact resistant. Fire retardant option. Corrosion resistant. Lightweight. Non metallic, Non sparking. Tough and durable. Choice of colours. Choice of sizes. Quick installation. Manufactured to ISO. Design life 10 years (subject to traffic analysis).

Standard lengths are:

600, 750, 800, 1000, 1200, 1500, 2000 and 3000mm.

Stair nosing profile 55mm x 55mm or 70mm x 30mm.

Thickness of the profile is 3mm. Service temperature -20°C to 80°C.

General use: Standard pedestrian traffic.

Available in Safety Yellow, White and Black.

The profiles are met from GRP via pultrusion method.

Non sparking, non metallic, impact resistant, chemical resistant.

For extra info see our website for the full datasheet.
