

Stair Landing Covers Swiss Solutions

Swiss Solutions Landing Covers

The Swiss Solutions Landing Covers are specially designed to fit on the step of the staircase. They also perfectly complement the Stair Tread Covers, as well as making the landing area anti-slip. The covers have a 55mm nose which is more rounded due to the fabrication process. The Landing covers easily combine with the Stair Treads, the Riser Plates and the Flat Sheets. It fully covers the substrate and visually transforms existing staircase.

Suitable applications are:

Fire escapes, all staircases and areas of heavy foot traffic. Internal ramps and staircases. It can be applied on wood, metal, stone and concrete substrates.

Product characteristics are:

Highly durable anti-slip surface for heavy use. UK DDA and building regulations compliant. It is maintenance free and easy to clean. Can easily cut in sizes.

Standard sizes are:

800x1200mm, 1200x1200mm and 1200x2400mm (1200mm is including the 55mm nosing)

Stair nosing profile 55mm

Thickness of the profile is 4mm. Service temperature -20°C to 80°C.

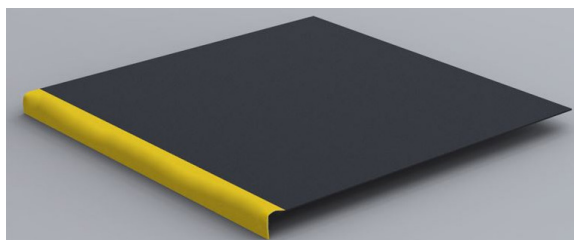

Fire retardant: ASTM D 635, non-sparking, non-metallic, impact resistant, chemical resistant.

Available colours: Black with Yellow nose, Black with White nose, Grey with Yellow nose and all stone. The profiles are made from GRP via pultrusion method.

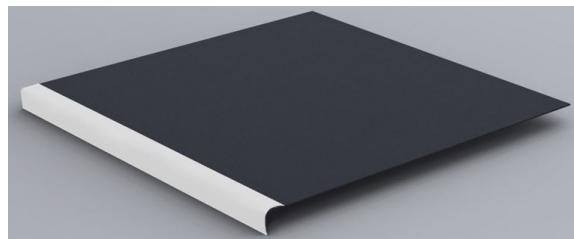

For extra info see our website for the full datasheet.
