TEAM Equipment Inc. SPLINTER BOX SET

TEAM Equipment SPLINTER BOX SET

Box Patch

TEAM Equipment Inc. USA manufacturer of first respons Damage Control products for leak sealing on board of vessels of all sizes.
Don't give up the ship. A breach from a grounding, a collision or a submerged object has to be contained fast, before flooding spirals past what the pumps can handle.
The TEAM Equipment Inc. Splinter Box Patch is built to take the bulk of the ingress, ideally 80 percent or more, and hand the rest to your bilge pumps.

Benefits are:

- Made of lightweight aircraft-grade aluminium.
- Marine-grade white powder coat with blue reflective lettering
- Closed-cell rubber gasket seals against an irregular hull.

Box size options:
There are three splinter box sizes, 12 inch (30 cm) patch for small penetrations and split seams, 18 inch (46 cm) splinter box the mid-size workhorse, 24 inch (61 cm) splinter box for the breach you hope never happens.

RMN holds stock for the T3BPKIT = All three sizes as one kit. One per DC locker.
