

Zettex Conservation and Lubrication Aerosols

Zettex Balsam

Is a spray containing silicone for protecting rubber and PVC.

Zettex Balsam can also be used to bring back the shine to worn synthetic materials.

For protecting all types of rubber, synthetic materials and PVC. For the temporary protection of rubber parts from salt and grease.

Article No.	Description	Contains	Packed
68ZE970205	Zettex Balsam aerosol	500 ml	12 pcs

Zettex MP800

Is a ceramic paste designed to protect all types of metals. Zettex Multi paste gives a very strong bond and provides durable protection against salt, acid and water. It can resist very high temperatures (+1200°C) and is chemical resistant. Is an alternative to user-unfriendly and environmentally harmful copper grease

Properties:

Prevents corrosion, less environmentally harmful. Gives optimum protection against salt and water.

Very strong bond and durable lubricant. Resistant to 1200°C peak load. Used as a sealing and assembly paste.

Ideal for threaded connections and re-tapping damaged thread.

Article No.	Description	Contains	Packed
68ZE308100	Zettex MP800 paste tin	250 gr	12 pcs
68ZE308107	Zettex MP800 pressure pack	200 gr	12 pcs
68ZE308101	Zettex MP800 aerosol	500 ml	12 pcs

Zettex Chain Gel

Is a high quality universal lubricant and chain spray. It has a broad temperature range from -40°C up to +220°C.

Is resin and acid free, friendly to the skin, corrosion resistant and waterproof. It forms an active, permanent and flexible lubricant film.

Material: Full synthetic grease

Properties:

Very wide range of applications, strong adhesion, dust repellent, unique penetrating effect, no corrosion on the surface.

For lubrication of axles, tools, transmissions, cables, connecting rods, open worm wheels, gland nuts etc.

Remove any excess gel with Zettex Profi-cleaner or with Zettex Security Cleaner.

Article No.	Description	Contains	Packed
68ZE996052	Zettex Chain Gel aerosol	500 ml	12 pcs

Zettex Superlube Hexaflon

Is a high-tech replacement for all Teflon lubricants. Very low friction coefficient. For universal use. Clean processing.

Resin and acid free. Excellent creeping properties. Chemical resistant, water repellent.

Excellent temperature range from -20°C up to +200°C.

For use in different industries for the lubrication of many metal moving parts. Also for metal conservation.

Article No.	Description	Contains	Packed
68ZE691010	Zettex Superlube Hexaflon aerosol	500 ml	12 pcs

Zettex Silicone Spray

Is a high quality dry lubricant for lubricating all types of hinged and moving surfaces. Content 70% silicone.

Leaves no residues and reduces friction on all surfaces.

Adheres to all surfaces, dry lubrication, long-lasting effect.

For lubricating sliding doors, conveyor belts, chains, hinges and locks. Suitable as a release agent for dies and moulds.

Prevents glues, paints and adhesives from sticking on almost any surface.

Article No.	Description	Contains	Packed
68ZE992951	Zettex Silicone Spray aerosol	500 ml	12 pcs

Zettex PTFE Oil

Zettex PTFE oil is a very high quality, universal Teflon-based lubricant that can be used in the most extreme conditions.

Ensures perfect adhesion on almost any surface. Is a ready to use product. Dissolves dirt and rust. Excellent creeping properties. Withstand very cold and very hot temperatures. Lubricates up to +250°C. Highly adhesive on all surfaces.

For long-lasting lubrication of all moving or hinged surfaces.

For lubricating chains that are exposed to extreme conditions. All lubrication in lathes. As universal lubrication on rusty surfaces.

Article No.	Description	Contains	Packed
68ZE300590	Zettex PTFE Oil aerosol	500 ml	12 pcs

Zettex PTFE Grease

Is a highly adhesive Teflon-based multi-purpose grease. Can be used universally for heavy loads in the shipping, offshore and other industries. Is designed for very high temperatures. **Can be used under high moist environments.**

Very low friction coefficient. As a lubricant for ball-, roller and gel bearings that are subject to heavy and changeable loads. Can also be used as a lubricant in the food industry.

Article No.	Description	Contains	Packed
68ZE300901	Zettex PTFE Grease aerosol	500 ml	12 pcs

Zettex Conservation and Lubrication Aerosols

Zettex Multi Oil

Is a high-quality universal lubricant with a 7-stage action. Is moisture replent and dissolves rust and dirt. Is resin and acid free and has excellent cleaning properties. For cleaning and lubrication of seized parts. For repelling moisture, for protecting electronic parts and for dissolving rust, tar and grease.

Article No.	Description	Contains	Packed
68ZE996043	Zettex Multi Oil aerosol	500 ml	12 pcs
68ZE990451	Zettex Multi Oil Can	5 ltr	1 pcs

Zettex Graffiti Remover

Is a highly-quality deep cleaner for the removal of graffiti. Also suitable for stubborn felt pen and ink stains. Material: hydrocarbon cleaner
Can be used on almost any surface.
Very fast action. Does not harm the surface.
Does not form shadows. Is biodegradable.

Article No.	Description	Contains	Packed
68ZE201060	Zettex Graffiti Remover aerosol	500 ml	12 pcs

Zettex Protect Wax

Is a fast drying universal protective wax for the long-term protection of metals against rust and corrosion. Extremely long preservation period (approx. 5 year)
Based on wax additives.
Gives an excellent protection against acids and salt.
As a protective wax against rust on untreated metal, joints, seams and so on.
As an effective adhesive, water-repellent, transparent layer.

Article No.	Description	Contains	Packed
68ZE950350	Zettex Protect Wax aerosol	500 ml	12 pcs
68ZE950351	Zettex Protect Wax Can	5 ltr	1 pcs
68ZE950352	Zettex Protect Wax Can	50 ltr	1 pcs

Zettex Zinc Spray

Zettex Zinc Spray is a fast drying, paintable coating with a very high zinc content. Resistant against chemical and mechanical wear. Produces a strong bond with long-lasting protection. Rust and corrosion resistant. Paintable primer.

Article No.	Description	Contains	Packed
68ZE410401	Zettex Zinc Spray Grey aerosol (can be painted over)	500 ml	12 pcs
68ZE410402	Zettex Zinc Spray Galvanic aerosol	500 ml	12 pcs
68ZE410404	Zettex Zinc Spray Aluminium aerosol (can be painted over)	500 ml	12 pcs
