Repair and maintenance
How to deal with emergency situations on board.

Be prepared with the new Wencon 8753 Steel / GRE Pipe Repair Kit.

This new developed Wencon Repair Kit offers you a piece of mind. The kit is suitable for both steel and GRE pipes from DN250 up to DN750. The Wencon UW Products adhere to wet and dry surfaces as well. With the combination of the Wencon Reinforcement Tape, the wrap method create an extremely strong repair of leaking pipes and optimie your efficiency and safety on board.
The kit comes complete with Wencon Application Tools and a Tercoo Disc for good surface preparation. Packed in a sturdy ULSA Pack and the Wencon Manual guides you through every repair job.
For your logistic department the Wencon Products offers a great benefit that it can be shipped out Without Dangerous Goods Documents (DG). **IMPA Code 81 23 33**.

RMN 25 YEARS WENCON DISTRIBUTOR IN 2027

2027 will become a milestone for RMN because we reach the 25 years of being distributor for Wencon.
We are proud to represent this great family owned company for so many years.
