

Swiss Solutions Worklight Solutions

37.500 Lumen over 25 mtr. = 1,500 lumen per meter

Swiss Solutions product Development

One of the latest developments in fast removable worklights is the FlexLED. A very flexible product with a high light output and a unique 240° (2x120°) light angle.

What is Swiss Solutions FlexLED

Flexible LED Strip for illumination on both sides. Energy saving alternative for temporary illumination of work side. No shadows which is a big benefit in compare to spot lights. The FlexLED can easily be installed to ceilings, walls, stairways etc. and provides an optimum illumination. Installation is fast and easy what is a huge benefit using temporary illumination. The LED strip is covered by a high performance, durable, clear, flexible PVC tube. This provide the user more flexibility and a higher light output. The FlexLED is IP65 and can be used indoor and outdoor as well. The FlexLED is 25 meter and comes ready for use on a cable reel with 1.5 connection cable with Euro plug.

The FlexLED can be extended up to max. 100 meter.

Technical features of the FlexLED

LED: LED's double sided 2 x 180 LED's per meter length.

System power: 325 Watt per 25 meter, (13W/m).

Light efficiency: **1.500 lm/m. (25 meter total 37.500 lm).**

Light color: 4.000K

Light angle: 240° (120° on both sides).

Estimated useful life superior to >30.000 hour.

Protection: IP65 and impact resistant IK08

Ambient temperatures: -25°C - +55°C.

Weight: 6 kg.

Dimensions 16 x 8 mm (WxH).

Length: 25 meter, extendable up to 100 meter.

Connection cable: 1.5 meter with Euro plug.
