

Swiss Solutions Modular Hand Rail System

Creating a safer environment

Product description

Modular Hand Rail System

The Swiss Solutions Modular Hand Rail System is ideal for a variety of applications. It is a fibreglass composite system ideal for industrial sized GRP structures where handrail is required. Engineered to use the fewest number of handrail components of any system available, facilitating an easier and faster installation. We offer key clamp, modular, ergonomic or warm to touch handrails in any size or colour.

Suitable applications

Walkways, ramps, fire escapes, all staircases, industrial plants, marinas and factories.

Product characteristics

- Corrosion resistant
- Non-Conductive
- Fire retardant
- High strength-to-weight ratio
- Long service life
- Meets OSHA and international Building Code Requirements
- Low maintenance
- Low installation cost
- UV protection (optional UV coating is required for installations with intense UV exposure).
- * Made using Isophthalic polyester resin formulation with a low flame spread rating of 25 or less designed for applications where there is moderate exposure to corrosive elements.
- * Made using Vinyl ester resin system with a flame spread of 25 or less for dependable resistance to both acidic and alkaline environments
