

Swiss Solutions SOPEP Oil Spill Kit

7 Barrel US Coast Guard

Creating a cleaner environment

Sopep Introduction

Different SOPEP's in force must be observed, depending on the trading area of the vessel subject to Port State Control verifications world-wide.

Regulations

The Marpol 73/78 SOPEP. The PANAMA CANAL SOPEP requires that vessels have shipboard SOPEP equipment ready for operational spills. The CALIFORNIA VRP for non-tank vessels, specifying shipboard capacities capable of handling a 7 barrel (1100ltr) or 12 barrel (1900ltr) operational spill, respectively. e.g. under 400'LOA, the 700 barrel rule, over 400' LOA the 12 barrel rule.

The USCG approved VRP effective as of August 2005 for non-tank vessels and tank vessels, applies the same rules as for the California VRP for vessels calling at US Ports e.g. on board capacities to be such as to handle a 7 barrel or 12 barrel operational spill respectively.

SOPEP = Shipboard Oil Spill Pollution Emergency Plan.
VRP = Vessel Response Plan.
