

To Wencon customers

Denmark, January 2015

## **Important news regarding Transport of Wencon product**

New Dangerous Goods Regulation valid from 1.January 2015 means that all Wencon products, except Wencon Cleaner, now can be transported by courier, directly to final destination. Please see new Dangerous Goods regulation below:

*Packages containing environmentally hazardous substance or mixture meeting the criteria of UN 3082 (most Wencon products), no longer need to be marked with the environmentally hazardous substance mark, when being transported in single or combination packages, containing a net quantity per single or inner packaging of 5 L or less.*

Above regulation valid from 1.January 2015 and new MSDS with amendments will follow within next month.

Please contact Niels Christensen if any questions.
