## WENCON STOCK POINTS

Installing Wencon products on board is easy and can be done almost anywhere in the world. Our stock points are situated at key sites on major shipping routes.

Wencon stock points are located in New Orleans, Panama, Singapore, Algeciras and Denmark. In addition, distributor stock points are found in several countries around the world.

To make it easy for you, every delivery from a Wencon stock point goes through your usual supplier.

Place an order with your Wencon supplier, indicating from where the product shall be delivered and you will receive an invoice from your supplier at the agreed price. No hidden extra.

As Wencon ensures a high rate of turnover at their stock points, you are always sure to receive fresh products.

Wencon is certified for packing and shipping dangerous goods all over the world. As a result, you are ensured that all documentation is complete, and that the products will be delivered at the pre-arranged time.
