

WENCON FIXATION TOOLS

To support and secure

To prevent cracks from running

The universal tools for a successful application

WENCON®

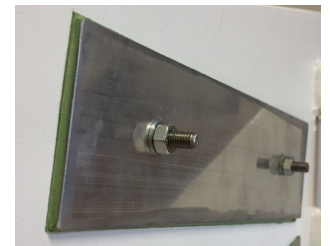

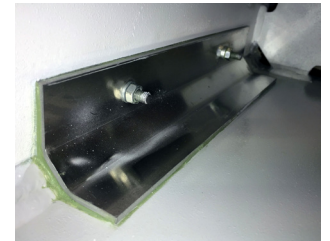

THE UNIVERSAL SUPPORTING TOOLS

WENCON® FIXATION TOOLS

For repair of cracks and corrosion, leaking pittings and welding seams.

Cracks are being drilled in both ends to prevent from running. With Fixation Tools, the drilled holes are used to support and secure Wencon products to the damaged part.

Wencon Fixation Tools can be used in combination with most Wencon products.
